LONESOME VALLEY

“Enriching families through nature and simplicity.”

OUR MISSION AND VISION

To preserve, protect, and pass on the Lonesome Valley ethos, legacy, values, and commitment to the environment while responsibly adapting to the changing lifestyles of current and future members and their families.

To provide an exceptional social, recreational, and dining experience, for those seeking an active lifestyle, within a community of facilities that are maintained at the highest quality level by a professional trained and dedicated staff, for our members to enjoy and be proud of when hosting their family and friends.

LONESOME VALLEY HISTORY

The Jennings family traces their roots in the hallowed canyon to 1895, when E.H. Jennings first acquired over 35,000 acres in these mountains. During the past fifty years, the Valley has been home to a variety of farming efforts including mink, trout, horses, and cattle. More recently, the Jennings reserved the expansive box canyon for family and friends. Annual holidays were always a festive highlight, with guests participating in the kitchen for Thanksgiving and square dancing and watching fireworks for the Fourth of July. For more than a century, the family has protected the Valley, allowing few changes beyond those accomplished by nature and her seasons. And of all the original land, the Jennings chose to keep one very special place to continue to share with new families and friends. That place is Lonesome Valley.

The Trout Pond on Dry Fly Lane is stocked with Rainbow and Brown Trout. This body of water is designated as catch and release, fly fishing only. To ensure the health of our fish we require single barbless hooks. Instructional classes and guided trips are available year-round, on and off property, offering fly fishing experiences for beginners and experts alike.

Rock Climbing

Rock climbers from around the world have been visiting the area since the early 1960's. Cow Rock is the 450' rock formation located on the east side of the Valley and offers beginner to expert climbing. North of Cow Rock, Laurel Knob is 1200' tall and is the tallest vertical rock face east of the Rockies. Laurel Knob is reserved for highly experienced climbers. Guided rock-climbing trips for all levels are offered year-round.

Hiking

We offer 11 miles of maintained trails that connect all the points of interest located within the 800 acres of Lonesome Valley.

Our flagship trail, Valley Way, is an easy hike that follows Logan Creek through the canyon to Laurel Knob. Blue blazes on the trees designate your path on primary trails. All other tributary trails leading from Valley Way are marked with white blazes.
